

- Call to order
- Councilor Ruggiero - No opening thoughts or general discussion
- Councilor Ruggiero last meeting we said we'd come prepared ready to make motions to move forward
- Councilor Munson – thinks we should follow the process but would like to have the legal opinion made public and we should prove it. We should make some recommendations to bring to the council and move forward
- Councilor DeMarco – agrees with Councilor Munson's general sentiment; believes he's elected to make tough decisions but when it comes to deciding form of government, believes that the public should have the vote
- Councilor Belcher – important to remember that none of these changes that would take place affect anyone who's currently elected and this is irrelevant to us
- Councilor Munson

 - Motion #13
 - Seconded by Councilor Munson
 - Discussion – Councilor Ruggiero – a lot of work went into this and this should be commended and passed
 - Passes unanimously
- Councilor DeMarco
 - Motion to approve 5A to increase percentage from “4%” to “6%”
 - Second for discussion – Councilor Ruggiero
 - Councilor Munson would disapprove this for one person to get signatures for any kind of vote and it could be as simple as a tree vote
 - Cost is a real factor here, it could tie up Town funds to keep running elections
 - Sometimes it could be helpful but not as recommended
 - Councilor DeMarco

- This ties into length of term as well and the number of signatures needs to be much higher
 - Councilor Munson – very easy to get 120 people to sign to put you up to a recall election; burden of running an election
 - Amendment vote: passes unanimously
- Councilor DeMarco
 - Motion for 5A as amended; no second
- Motion to accept the use variance recommendation pending further investigation and opinion by the Town Manager and Legal
 - Second
 - Discussion – Councilor Ruggiero – this is definitely something that needs further investigation
 - Passes unanimously
